

Seclusion & Restraint

Michigan schools reported using seclusion & restraint
22,562 Times
during the 2022-23 school year.

That number is
Up 24%
from 18,205 times reported last year.

Seclusion & restraint were used approximately
125 Times
every school day 2022-23 school year.

**91 % of Restraints &
95% of seclusions**
were used on students with disabilities

This is despite the statement by the U.S. Department of Education that “the use of restraint and seclusion can, in some cases, have

Very Serious Consequences

including, most tragically, death. There is

No Evidence

that using restraint or seclusion is effective in reducing the occurrence of the problem behaviors that frequently precipitate the use of such techniques.”

(Restraint and Seclusion Resource Document – Page 2, Paragraph 1)
